## YOU WANT DEDICATION...

You are invited to read about dedication in "The Journalist's Creed", which holds editorial lead on Page 2.

Thousands of Cameron and Milam loyalists have joined in the efforts which have created not only a new Cameron, but a loyalty which crosses just about all the boundaries that usually divide people.

I am as confident as Walter Williams we'll continue that loyalty which is a key to success, broad-based success of this community.

Decades of dedication and professionalism are involved.

118-118-118

## VARIED NEWSSTANDS...

Another daily, the Bryan Eagle, has announced plans to begin distribution in the Cameron area.

Confirming an earlier comment in this column, the Bryan daily brings to about nine the number of dailies available on Cameron and Milam newsstands or delivered to Cameron and Rockdale residents.

They are: Temple morning, Waco morning and afternoon, Austin morning and afternoon, Houston Post, Houston Chronicle, Dallas Morning News, Fort Worth Star-Telegram and the Bryan paper.

118-118-118

## THANKS! THANKS! THANKS!

Comments have been incredibly positive following your Herald's first inquiry about people "telling us" what you want, or hope to see improved.

First of all, readers are astounded at the number of

## News Briefs

### Firemen Attend School

Four Cameron volunteer firemen completed a 30-hour fire-fighting course at Texas A&M last week and this will reduce the city's fire insurance rate by 5 or 6 percent, Chief Felix Matula said.

Attending were John Lansford, John Thompson, John Schmidt and Matula. The course included basic tactics, high-rise fires, and fire prevention.

### School Opening Set

The Buckholts school board set August 29 for the first day of classes, with teacher in-service training August 22-26.

High School students will register Aug. 22-26 along with students who haven't previously attended school at Buckholts. All other elementary and junior high students will register on the first day of classes.

### Milano Council Meets

The Milano city council meeting Monday night discussed application for a \$21,000 planning grant being considered in Austin, and a \$16,000 community action grant for reconditioning the town's community center.

The city also made application to Milam County for funds to use for recreational equipment, and voted to join the Small Communities of America Association.

people involved in this regional non-daily, circulating almost 4,000 newspapers each edition and more than 10,000 on special call.

Second, their comments about the wider inside columns, the larger reading type encourage us to stay with the six-column format throughout each edition.

Third, we are going into Herald microfilm files for a weekly look into history of Cameron, encouraged by the recent success of Milam Museum, Cameron Library over the past decade, among other things.

Fourth, we are asking for further comment in this edition to all correspondents around the county and to Cameron newsroom people.

Fifth, readers are expressing appreciation for the competence of your Herald staff, which is gratifying when we realize that to the person their newspaper experience began in this newspaper.

118-118-118

## PERSPECTIVE...

The last survey we ran was a "community attitude" survey about 1971 which received a valid enough return to substantiate effort in news and editorials destined in later years. It followed efforts which started to turn things around here in the mid-60s.

For those who grimace at some of the words or some of the attempts at getting people to think, we recall that Herald editorials won the "Golden Dozen Award" among thousands of U.S. entries in 1970 and Herald Page 1 columns won the "Golden Pencil" award from H&R Block the same year.

We are no more aggressive, no more apologetic, no more iconoclastic than seven years ago. If anything, the temper of the times is now lower key.

Now 118 years young, this newspaper has the stature Cameron and Milam County have always encouraged.

We thank you for continuing us.

## TJC Offering Credit Classes In Cameron

Temple Junior College will offer a variety of credit classes in Cameron during the fall semester, Dr. H.C. Farrell Jr., dean, announced.

Signup for the classes is set for August 16 starting at 6:30 p.m. in Ben Milam cafeteria.

Courses to be offered include Business, Czech, Economics, English, Government, History, Psychology, Sociology, Speech, and Mathematics. Other courses may be added for which at least 15 persons enroll.

The classes are offered in cooperation with the Cameron public schools and will be taught by members of the TJC faculty.

Classes will meet either on Monday or Tuesday nights from 6:30 to 9:20 p.m. at Yoe High School.

It is important that any person wanting to take a course

'ARE YOU SURE IT'S SAFE?' - This swim class student seems to have second thoughts about going off the board at Cameron city pool as instructors Richard Raymond and David Raymond assure him that it is really fun when you take the plunge.

## For School Children

## Health Director Urges Immunizations

Children needing immunizations for entering school or a child care facility are urged to get them early by Dr. E. Douglas Perrin, acting director of the Milam County Health Department.

August is Immunization Action Month, and it's a good time for all parents to review the immunization status of themselves and all their children, said Dr. Perrin.

Anyone needing immunizations against such diseases as diphtheria, polio, pertussis, measles, rubella, tetanus or mumps should see their private physician or

visit one of the public health department clinics.

"Measles and rubella (German measles) have been showing a dramatic increase in Texas this year, and they are two diseases for which immunizations are readily available," said Dr. Perrin.

Severe complications and even death may result from measles, and it is senseless for anyone in our society to go unprotected. These complications can include ear infections, pneumonia, deafness, blindness and convulsive disorders or other forms of brain damage.

Rubella is a disease which has a devastating effect on the unborn. Rubella, sometimes called German measles or three-day measles, can cause babies to be born with abnormalities, or the pregnancy can end in still birth or miscarriage.

The health department or

## Car Misses Curve

No injuries were reported in a 4 p.m. Sunday mishap when a car driven by Larry Wright of Fort Hood missed a curve on Hwy. 190 at the overpass east of Rogers. Two passengers in the car also escaped unhurt, said DPS Trooper Don Wardlaw.

## NE Paving Due Start

Paving of streets in northeast Cameron can start any time the contractor is ready, city councilmen heard Tuesday evening at a regular council session.

Residents in 30 of the 40 units scheduled for paving have signed up, a representative of Texas Securities Corp. said. That firm is underwriting financing of the \$126,650 worth of paving for property owners.

Engineer Clifford Cason will contact the contractor, Odell Geer of Harker Heights, for a schedule to see when paving can start.

It was emphasized that property owners in the project who have not signed up should contact the security firm's representative at city hall as soon as possible. The owners may take up to five years to pay, if desired.

In other business, Edward Demerson, who plans a subdivision in the 12th St. area, agreed to let CDA Director A.W. McCullin investigate the inclusion of his streets into the West Cameron paving project.

McCullin said his office hopes to seek bids soon on that paving program. He added that only one bid was

received on the city's third year sewer project and it was "out of sight."

He reported that the city's application for more housing for the elderly has been tentatively rejected based on site location, but his office is still working on it.

A problem of hauling off limbs and tree trunks from private property was described by Mayor Lawrence Zots as a real headache. The debris should be cut into four-foot lengths for pickup and council said trucks should not pick up the limbs if they are not cut.

Another problem noted by the Mayor is blind corners at intersections caused by vegetation planted on city property. The police department is currently surveying these spots and will notify property owners to clear the hazards.

A request for lights at a 12th St. ball park brought no action as it was noted that there are now five ball parks available for residents.

## Cracking Soil Blamed For Gas Line Leak

Dry weather, with cracking soil, was blamed by Lone Star Gas Co. for a leak in a service line to a residence on Park and S. College that was discovered by city police around 4 a.m. Saturday.

On a routine patrol of the neighborhood, police Sgt. Joe Cottle and officer Jack Gordon detected a strong odor of gas at the location and called the gas company. Residents in the area were alerted until the leak was found.

LSG Manager Grady Allen said the leak occurred when a 1-inch nipple separated from the underground service line.

## First Bale Ginned

Modern Gin of Buckholts received its first bale for the 1977 season Tuesday when E.D. Taylor of Holland brought in 2,570 pounds of seed cotton which baled at 525 pounds.

WINNING TEAM - The men's pumper team from Cameron won first place at the Elgin Frontier Days contest. From left are Jim Lafferty, Thomas Harwell, Leslie Bruedigan, captain Henry Horelica, Jim Delony. Not pictured is John Hairston. The first three-man team also won second place, with Bruedigan, Harwell and Lafferty team members.

## The Journalist's Creed...

I believe in the profession of journalism.  
I believe that the public journal is a public trust; that all connected with it are to the full measure of their responsibility, trustees for the public; that acceptance of a lesser service than the public service is a betrayal of this trust.  
I believe that clear thinking and clear statement, accuracy, and fairness, are fundamental to good journalism.  
I believe that a journalist should write only what he holds in his heart to be true.  
I believe that suppression of news, for any consideration other than the welfare of society is indefensible.  
I believe that no one should write as a journalist what he would not say as a gentleman; that bribery by one's own pocketbook is as much to be avoided as bribery by the pocketbook of another; that individual responsibility may not escape by pleading another's instructions or another's dividends.  
I believe that advertising, news and editorial columns should alike serve the best interests of readers; that a single standard of helpful truth and cleanness should prevail for all; that the supreme test of good journalism is the measure of its public service.  
I believe that the journalism which succeeds best—and best deserves success—fears God and honors man; is stoutly independent, unmoved by pride of opinion or greed of power, constructive; tolerant but never careless, self-controlled, patient, always respectful of its readers but always unafraid; is quickly indignant at injustice; is unswayed by the appeal of privilege or the clamor of the mob; seeks to give every man a chance, and as far as a low and honest wage and recognition of human brotherhood can make it so, an equal chance; is profoundly patriotic while sincerely promoting good will and cementing world-comradeship; is a journalism of humanity, of and for today's world.

**"Low Down"**  
FROM THE  
**Congressional  
Record**  
By JOE CRUMP

(A Column for Readers Who Haven't Time to  
Review the Congressional Record Daily)

### NO DEATH BENEFITS FOR RESCUE SQUADMEN

REP. CHARLES W. WHALEN, Jr. (Ohio) "...Last year Congress enacted the Public Safety Officers Benefits Act. This law provides a \$50,000 payment to the dependents of any law enforcement officer or fireman who is killed in the line of duty..."

"However, according to regulations recently promulgated by the Law Enforcement Assistance Administration (LEAA), the benefit is not available to one important group of firemen; those who work for rescue squads..."

"In its final regulation released on May 6, LEAA defined 'firefighters' as those 'fire service personnel authorized to engage in the suppression of fires.' This narrow interpretation effectively excludes rescue squad members from public safety benefits."

"Rescue squad functions at the scene of a fire include search and rescue of persons trapped in the burning building, forcible entry, ventilation, lighting, and assistance in cleanup operations."

"If there is no rescue squad to carry out these duties, they are assigned to

one of the fire department units on the scene. Other activities commonly assigned to rescue squads include heavy rescue, water rescue, response to automobile accidents, and other ambulance work. Since they do work so closely with fire departments, many rescue squads are included within the fire department organization..."

"If a fireman and rescue-squadman were killed while working together to save a person trapped in a burning building, the survivors of the former would be eligible for a Federal payment while the latter's heirs would be ineligible. According to LEAA, rescue-squadman are covered only when actually involved in fire suppression..."

"Our bill (H.R. 8236) specifies that rescue squad members will be covered in the same way as firemen..."

...I urge prompt consideration of this legislation..."

### CRUMP'S GRASS ROOTS COMMENT

Ms. Patricia Wald should spend some time working with a rescue squad. She has spent too much time behind a desk in Washington. H.R. 8236 should be passed promptly.

Dateline Austin

## Little Hope Seen For Seadock

Nine mayors from Texas coastal towns made a trip to Washington to try and revive Seadock, the proposed \$700 million Texas offshore terminal facility.

But major oil companies, part of the consortium which planned the facility 26 miles off Freeport to unload foreign oil, said there is little hope.

The companies claimed the federal government attached too stringent terms to licensing and made their sizable investment unsound. Gulf, Mobil and Exxon, which pledged 52 per cent of Seadock's financing, pulled out.

Advocates of the superport believe it can save \$1 a barrel on imported oil costs, permitting transportation of the oil in supertankers which are too large for most existing ports.

Meanwhile, Gov. Dolph Briscoe has signed into law legislation which would permit the state to finance an offshore terminal if Seadock folds as expected.

The bill provides for issue of revenue bonds through a deepwater port authority to build the facility. Revenue would come from users of the terminal, and the state's credit would not be obligated.

The legislation also insures that federal licensing requirements must impose no financial liability (such as for oil spills) on the state.

### Tax Expanding

Revenue from 10 state occupation taxes has grown 133 per cent in the last five years—to a total of nearly \$1 billion in 1976.

Bullock said oil and gas production taxes led the big increase, leaping from \$305.2 million in 1972 to \$793.7 million last year.

Oil and gas production taxes account for 80 per cent of all occupation tax revenue in Texas. Gas production taxes jumped 219 per cent and oil taxes 125 per cent during the five year period.

Bullock's monthly report for July showed May state revenues totalled \$803.8 million, bringing total receipts for the first nine months of fiscal 1977 to \$5.2 billion, a 12 per cent increase.

Sales tax collections, at \$391.9 million, were 15 per cent ahead of 1976 levels.

State spending during May totalled \$587.8 million. Total expenditures for fiscal 1977 are \$5.06 billion, a three per cent increase. A cash balance of \$1.5 billion was on hand at the end of May.

### Appointments Announced

Gov. Briscoe named Judge Carlos C. Cadena of San Antonio chief justice of the Fourth Court of Civil Appeals, succeeding Charles Barrow who took the oath of office last week as a Briscoe appointee to the State Supreme

## "HOW THE CONSUMER INFORMATION CATALOG HELPED ME SOLVE THE MYSTERIES OF THE LEAKY FAUCET"

I'll never forget my first leaky faucet. It had me stumped. I meditated. I talked to it. It still leaked. Then I discovered the Consumer Information Catalog.

It is put out by the Federal Government and lists over two hundred of their booklets that you can send away for. It listed just the booklet I needed to fix my faucet. It also listed booklets on how to fix a car, dieting, how to buy a home and many others. And most were free.

So send for the free catalog which you will also find very helpful. Write: Consumer Information Center, Dept. A, Pueblo, Colorado 81009. Because the road of life is paved with leaky faucets.

**THE CONSUMER INFORMATION CATALOG**  
A catalog of over 200 helpful publications.

## OLD PHILOSOPHER

Dear editor:

As everybody knows, land prices have been going sky-high and as a result what a piece of land will produce and what it'll sell for have no connection. It's sort of like it is with some Congressmen.

This has been caused in part by the awakened desire of city people to own some land in the country, although after they get some I've noticed their enthusiasm frequently plays out. I'd say that on the average it takes about three or four years for a city dweller to find out that owning a second home in the country isn't as much fun as he thought it'd be. It takes some city people a while to figure out that paying two sets of mor-

tages and two sets of utility bills doesn't come out to being twice as much fun as paying one.

But what got me off on land was an article I read the other day revealing an absolutely new standard for selling the stuff. The city of Philadelphia, trying to recoup some of its lost industry, is offering to sell 1,300 acres of land valued at \$35,000 an acre for only \$3,500 an acre, a 90 per cent discount.

The terms of the sale however are that a buyer must agree to put up some kind of factory or business that'll produce 15 to 30 jobs per acre.

Selling land on the basis of jobs-per-acre is an absolutely new wrinkle and may be all right for Philadelphia, but I hope the idea doesn't spread. It certainly would reduce the market value of my farm and some of my neighbors' farms out here.

Yours faithfully,  
J.A.

## Texas Taxes

By BOB BULLOCK  
State Comptroller

AUSTIN—I guess about everyone in Texas is aware of the tough stand taken by this office against unscrupulous businessmen who pocket the sales tax collected from their customers instead of returning it to the state treasury as required by law. And frankly, I'm proud of the efforts by "Bullock's Raiders" to collect every penny in tax money legitimately owed the state. The record revenues pouring into the treasury reflect, in a small part, the success of our efforts.

Thanks to some help from the Texas Legislature, we're now going to be able to intensify our collection efforts in another area—delinquent taxes owed by defunct corporations.

Each year, hundreds of thousands of dollars in tax revenue is lost because of the difficulty in bringing suit successfully against the officers and directors of defunct corporations.

Changes in the law adopted by the Legislature earlier this year will make it easier for us to bring legal action for delinquent taxes against the officers and directors of the corporation.

## County Agent's Notes

Time To Plan  
Winter Pastures

By Billy M. McCutchen

With 100+ temperatures it certainly doesn't seem that Fall is near, but it is. July and August is the time to get land in shape for winter pastures and if your object is solely grazing steers and or heifers the closer you can plant to September 1 the better your chance of making it pay.

We have two basic options in Milam County; to plant on a prepared seed bed or to seed on bermudagrass pasture.

In the case of prepared seedbed, land should be prepared during July or August. In lieu of a soils test fertilizer with 80-80-0 on blackland or 80-80-80 on sand. Plant September 1-15 using 100# of oats, wheat or rye plus 15# of ryegrass per acre. You may have to control armyworms when planting early.

Cross fencing with electric fences or other temporary fences can be helpful. By planting early you should have ample forage stockpiled by mid-November to begin grazing and yet have enough to carry you through the winter.

A high quality hay will help you stretch your winter forage. A stocking rate of 1-1½ calves or more to the acre will be necessary to make the most profit from this winter pasture program.

If you have coastal bermuda on sandy soils an alternative to this is sod-seeding ryegrass. First remove bermuda growth by September 10. Bale, graze, or shred to remove this growth. Disk lightly two times and plant on September 15th using 20# of ryegrass per acre. Fertilize with 50-100-100 on sandy soils. When the winter pasture is up and growing well, usually 3 weeks, topdress with 75-0-0.

This kind of program will approximate that you can obtain on a prepared seedbed.

Farmers and ranchers in Texas and throughout the nation will have access to more and better weather information on which to make management decisions once a national agricultural weather network is instigated.

Dr. Karl Johannessen, associate director for meteorology and oceanography with the National Weather Service (NWS), Washington, D.C., told a meeting of agricultural meteorologists here at Texas A&M University that the NWS has made a pact with the Extension Service, U.S. Department of Agriculture, to put into action a system for more effectively gathering and disseminating weather information to benefit farmers and ranchers.

The meteorologists were attending a two-week symposium to learn more about agricultural production and the effects of weather.

"The Extension Service will provide the personnel to take weather information directly to farmers and ranchers. This

will assure that the information gets to the grassroots level. Plans call for one meteorologist to be added to each state Extension staff to work closely with NWS personnel in making the best possible use of agricultural weather information.

"These state Extension personnel will be our 'apostles' in the field and will play a key role in our total agricultural weather network," emphasized Johannessen. "They will be especially valuable in providing two-way communications between our service and the producers themselves."

Johannessen noted that "We have a long way to go in forming a complete national agricultural weather network, but our chances of establishing such a network are improving as weather problems continue to plague our producers."

He said that plans are under way to establish seven additional Environmental Studies Service Centers such as the one at Texas A&M. This would require \$4 to \$5 million and a staff of about 60 news people. There are currently four such centers in operation.

"We also plan to establish some 330 weather radio stations (special limited range FM stations with continuous weather information) across the nation that will broadcast both regular weather information as well as special agricultural weather advisories," pointed out Johannessen. "Our total weather radio network should be in full operation in three or four years."

The NWS official also noted that 28 new staff members will be added nationally to give more emphasis to agricultural weather information. These will be added at various weather forecasting offices.

Another speaker, Harold Scott, leader for the NWS agricultural meteorology program, Washington, D.C., also added emphasis to the proposed program involving the cooperative effort between the NWS and the Extension service.

"This plan will allow us to go in tandem with the Extension Service which has personnel in each county of each state. The state Extension meteorologist would work closely with each county Extension agent as well as with any farmers and ranchers as possible to establish working relationships. This is the real key to both effective dissemination of weather information as well as to obtaining feedback from the grassroots level on specific weather information needs," said Scott.

"The Extension person will also be responsible for training programs to help county agents and producers better use weather information and to assist them in getting the right information," noted

Scott. "He will be the real key to setting up and implementing our national agricultural weather program."

Agricultural meteorologists from 18 states, the District of Columbia and France participated in the symposium sponsored by the National Weather Service Agricultural Forecasting Program and hosted by the agency's Environmental Studies Service Center at Texas A&M. Instruction was provided by specialists of the Texas Agricultural Extension Service, Texas Agricultural Experiment Station scientists and industry leaders.

## Latest Land Heritage Volume Now In Libraries

AUSTIN—Every public library in the state has by now acquired a copy of Vol. III of the Texas Family Land Heritage Program Registry, Agriculture Commissioner Reagan V. Brown said this week, adding that the new volume provides history buffs with "a most unique and informative research material."

The Registry, published by the Texas Dept. of Agriculture, lists farms and ranches in the state which in 1976 qualified for the Family Land Heritage Program. This program honors lands which have been under continuous production by one family for 100 years or more.

Although individual distribution of the book is limited to honorees, Commissioner Brown said that besides placing the

Registry with all Texas public libraries, his staff is in the process of mailing copies to each school library in counties in which 1976 honoree lands are located.

The 1976 Registry contains narratives about some 164 properties out of 1,112 which have been recognized since the program was initiated in 1974.

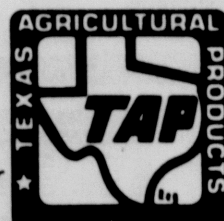

Commissioner Brown said that the registration period for 1977 reopened on May 1. He added that anyone interested in applying for the current year's program may obtain registration forms from their county judges, county Historical Commission chairmen or by writing to the Texas Dept. of Agriculture, P.O. Box 12847, Austin, Texas 78711. Deadline for the current registration is Aug. 15.

FARM FOUNDER—Louis Koenig, founder of the Koenig Farm in DeWitt County, and nine of his 12 children pose before their farmhouse in the late 1800's. The Koenig farm was recently certified under the Family Land Heritage Program of the Texas Dept. of Agriculture. The farm has been under continuous operation by the Koenig family since 1877.

Texas Food  
and Fiber

by Reagan V. Brown, Commissioner  
Texas Department of Agriculture

Many Texans view the Texas Department of Agriculture as being only interested in farming and ranching. This image, let me quickly point out, is not correct.

We are interested in our farmers and ranchers. But the Department's interest is much more inclusive than just this vital segment of the population that makes up Texas. Many of the Department of Agriculture's duties and responsibilities are consumer-oriented and are of concern to urban and rural dwellers alike. In fact, 53 per cent of the Department's budget involves consumer matters.

To assure consumers an opportunity to be heard, the Department has personnel who handle complaints from consumers who feel they have been cheated or treated unfairly. In cases not concerned with departmental regulatory duties, the Department refers the complaint to the appropriate state or local agency.

A recent example of this resulted from the widespread publicity given when the

federal Food and Drug Administration announced plans to ban saccharin from use. A lady in Alpine was confused when she purchased a carton of ice cream. The carton included saccharin in its list of ingredients, but there was a sticker on the carton which stated, "Contains no saccharin."

A survey showed that such stickers appeared on the same brand of ice cream in several cities. Personal contact with the company revealed that during the saccharin controversy the company omitted the artificial sweetener but used previously printed cartons.

Department officials contacted the Texas Department of Health Resources which reported they had directed the ice cream company to discontinue use of the label and to remove the mislabeled product from retail markets. Since saccharin had not been banned officially, there was no reason for the product containing saccharin not to be offered for sale provided they are correctly labeled.

I feel certain this fine cooperative action resulted in the elimination of confusion caused by the controversy and helped the processor and consumer alike.

Would you believe that a Texas egg and a gasoline pump at your service station have anything in common? They do. Both are inspected by the Department's Consumer Services Division, the egg to assure you that it is fresh and graded to size and suitable for your table and the gas pump with its Department inspection sticker to ensure you a gallon of gas for a gallon purchased.

A major consumer service of the division includes its

weights and measures program. This viable part of the Department consumer protection activities keeps close tab on heavy duty, medium, and small scales throughout the state. In fact, the division can measure the weight of your signature or a cattle truck.

The consumer protection functions of the Department also include the certification of public weighers, inspection of grain warehouses, the certification of warehouses, checking for the presence of pesticide residue in Texas food crops, the licensing of nurseries and the grading of produce to make certain uniform standards are met.

Our responsibilities to the consumer are great, and you can be assured we at the Texas Department of Agriculture will leave no stone unturned to fulfill our obligations to the people of Texas.

## Fire Danger!

AUSTIN—Because of the very dry condition of rangeland in several parts of the state, Agriculture Commissioner Reagan V. Brown warns summer travelers and campers that carelessness could easily trigger costly and dangerous range fires.

Brown said that vast areas of valuable rangeland could be turned into wasteland "in a matter of minutes" by cigarettes or matches thoughtlessly thrown from vehicles or by unattended campfires.

## TEMPLE JUNIOR COLLEGE

## AT CAMERON

Registration at the Ben Milam Cafeteria, next to Yoe High School, for fall semester credit and credit free classes will be on TUESDAY, August 16, 1977, at 6:30 p.m. Temple Junior College, in cooperation with the Cameron Public Schools, will offer Business, Czech, Economics, English, Government, History, Psychology, Sociology, Speech, Mathematics, and any credit courses for which at least fifteen students enroll.

Temple Junior College will also offer at Yoe High School any credit free course for which at least fourteen students enroll. It is important that any person wanting to take a course be present at the time of registration, because it will be at this time that a decision will be made as to whether or not a course will be offered. This decision will be based on the number present who are interested in a particular course.

Students who want to take a course for credit and who were not enrolled in Temple Junior College in the spring or summer of 1977 should file an application and immunization certificate and submit official transcripts from all colleges and/or high schools previously attended. The applications and immunization certificates may be secured from the Admissions and Records Office at Temple Junior College or can be secured at the Ben Milam Cafeteria at the time of registration.

SAVING  
TIPS  
on electric  
air conditioning

Air conditioning provides lots of comfort during the summer months, but for many thousands of homeowners it is also the biggest factor in the cost of electricity. On the average, air conditioning accounts for about half of summertime electric bills.

Here are ways you can hold down the cost of air conditioning and still enjoy its comfort.

## Central Systems

1. Set thermostat on 78° or higher, during the summer. Turn unit off if you'll be away from home several days.
2. Keep equipment at top operating efficiency. Have it checked seasonally by qualified serviceman.
3. Check filter every 30 days. Dirty filters cause equipment to use excessive electricity. If filter is permanent, clean by manufacturer's directions; if it's disposable, it should be replaced when dirty.
4. Keep furniture, draperies away from air outlets and returns. Clean grills often.
5. Close draperies and blinds to keep out direct sunlight.
6. Keep fireplace damper closed.
7. Proper home insulation keeps the heat out, cuts energy use. Insulation questions? Call TP&L.
8. Shade on roof and walls can reduce energy needed to cool. But trim trees, shrubs away from outside compressor unit. Keep it free of leaves, debris. If air flow is blocked, unit uses more energy.
9. Weatherstrip doors and windows; caulk cracks to prevent drafts and cool air loss.

10. Keep windows closed. Open outside doors as little as possible.

**Window Units**  
Follow above suggestions, plus these:

11. Buy units with highest "energy efficiency ratio" (EER). Uses less electricity to cool. If EER is not on sales tag, ask for it or figure it yourself. Divide "wattage" into "BTU" capacity. Both figures are on unit.
12. Place unit where it'll get as little direct sun as possible.
13. Aim air outlets at lower half of doorway to next room to allow warm air from that room to enter at the doortop for recirculating.
14. Never vent air conditioner into garage. Ventilation is usually too poor for top performance of your unit.

Conserve electricity and you help conserve one or more of the fuels needed to produce it. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting. And, in as many other ways as possible, TP&L is reducing its own uses of electricity.

If you would like additional information on conserving electricity, call the Customer Service Representative in the TP&L Office.

# Notes From Gause

By Mrs. J.P. Wise

Weekend guests of Mrs. Doris Gleason and Miss Mary White were the Randy Gleasons of Houston, David Anderson of Lake Jackson and Mrs. Tim Houshes of Dallas and Kelly Gleason of St. Louis. Mrs. Hughes and Miss White left Sunday for Johnson City and other points in South Texas.

The Johnny Yates spent the weekend in Leesville, La. with their daughter and family the C.L. Singleters. Their grandson Chad returned to Maysfield with them for a two weeks visit.

Mrs. Dock Thweatt and Mrs. Leota Thweatt went to Houston Saturday to visit their children Danny Thweatt and Mrs. Lanete Vrana. They attended the golden wedding of their uncle and aunt the Jess Rays. Mrs. W.C. Cooper accompanied them and visited her daughter and family the Rev. Frank Newtons.

Mrs. Alton Weiser and children of Giddings visited her aunt Mrs. Mary Massengale Thursday. Mrs. Weiser is the former Paula Massengale.

Mrs. Roy Newton and Mrs. Maritima Massengale went to Austin Wednesday.

By Mrs. W. McDaniel

The shower for Jackie Swope, bride elect of Gary Osleck, was well attended Saturday night at the Baptist annex in San Gabriel.

We extend sympathy to Mrs. Buddy Limmer at the loss of her cousin Mrs. Garrett Beckhusen of Buckholts, who died Saturday.

Mrs. Texana Beard returned home Saturday afternoon after a weeks visit with her children the John Wayne Beards and family, Mrs. Bobby Beard and her grandchildren all of Houston.

The Tommy Wilsons of New Gulf are here this week in their country home and for a visit with her sister, Mrs. Hazel Clark. They visited Jim Stewart and Mrs. Stewart Monday afternoon.

The Buddy Limmers visited her brother Johnny Roepke and Mrs. Roepke Sunday afternoon at Round Rock. Johnny has just recently had major surgery in Austin.

Robby and Calvin spent the weekend with their grandparents the Walter McDaniels. They took him home Sunday afternoon and attended a musical program at the Baptist

Church in Round Rock where Robby, Michael and Calvin were part of the singing.

The Charles Pitts have returned from a two week vacation to New Mexico and Colorado. They saw many beautiful sights of interest, had a wonderful time, but are so glad to be home.

Many have visited Jim Stewart this week at his home where he is doing real well. Stuart Caffey of Salty spent this week with his grandparents.

The Johnny Ray Limmers, Cindy and Andy of Pasadena, spent the day with their parents the Buddy Limmers. They left Cindy for a two weeks visit.

The Elbert Eilands of Houston spent Friday with his sister Mrs. Guinn Gifford and Mr. Gifford.

Little Patrick Arness will have major surgery at Seaton Hospital in Austin August 9. Pray for him.

The Ike Camps spent several days with Mr. and Mrs. Baskin Gamble of Minnesota.

## Local Teacher Receives Award

Jesse White, local fifth grade teacher, received an award July 20 in Austin from the State Human Relations division of the Texas State Teachers Association. He received this award previously on the district level.

The award was given in recognition for White's work on the local level in Cameron. He takes a group to the local nursing home each week to sing for the residents, and also directs the childrens choir at First Methodist Church.

Next year he will be president of the local classroom Teachers Association.

By Mrs. Wanda Lee

The WMU of the Gause Baptist Church met at the church July 25, with 8 members present.

The meeting was called to order by the president, Mrs. A.D. Olinger. The opening prayer was by Mrs. B.B. Rains followed by the Bible Study "Christ Makes all Things New" from the Royal Service magazine, with all present participating.

The prayer calendar was brought by Mrs. W.L. Ditto, chairman and prayer for the missionaries whose birthdays fell on July 24, was voiced Mrs. Thomas Dusek. The closing prayer was given by Mrs. H.B. Alexander, followed by adjournment.

Last week, the WMU assembled for the book review, given by Mrs. Thomas Dusek, "Living Sacrifice" the story of the Aberrathys' experiences as missionaries in China and Korea.

Mrs. Lizzie Hughes has been a patient in the Hearne Hospital.

Mrs. O.L. Harlan is home after spending several days in the Hearne Hospital with leg trouble.

Kandi, Lori and Larry Collie have visited recently with their grandparents, Mr. and Mrs. Brown Ely.

Mr. and Mrs. Alfred Coats, Ray and Kevin spent several days last week in Horton with his father, Mr. Olan Coats and other relatives.

Mr. and Mrs. James "Bobo" Todd and daughters, Debbie and Lisa are home after vacationing. They spent a couple of days in Dallas, accompanied by the Varanas from Taylor. While in Dallas they spent a day taking in Six Flags Over Texas. They spent a couple of days at Lake Somerville along with Mr. and

Mrs. Donald Shaw and children. From there they went to Houston for a few days visit with relatives and

friends. Recently visiting in the Todd home were her cousin, Ricky Waters and wife Bonnie from Lakeland, Ga.

Wednesday night, July 27, the home of Mr. and Mrs. J.T. Todd was the setting for a surprise birthday party honoring Mrs. Vera Cox on her 78th birthday. Refreshments of birthday cake and homemade cake were served. Those sharing the occasion with Mrs. Cox were her daughter, Mrs. J.T. Todd Mr. and Mrs. Bobo Todd, Debbie and Lisa. Mrs. Susie Dent, Todd, Craig and Denise, and Mr. and Mrs. Billy Todd, Jennifer and Stephanie of Cameron. Mrs. Cox received several phone calls from relatives and friends wishing her a "Happy Birthday".

Visitors this past week with Mrs. Mildred Fisher and other relatives in Gause and Mr. and Mrs. Shack Shafer at Hanover were Mrs.

Don Stanisich and son Steven and a friend, Todd Ditto of Butte, Montana. They had also visited in Nashville, Tenn. to see the Grand Ole Opry and Opryland, in New Orleans and in Houston. Mr. and Mrs. Georbe Bland took them over to Cameron on Friday for lunch and then on a tour of the Milam County Historical Museum which the boys really enjoyed.

Mr. and Mrs. Wayne Lee, Craig, Kelly, Lance and Leah honored their daughter and sister, Kristi on her 5th birthday, Wednesday, July 27 with a party at the Community picnic area. Invited guests included the little ones that Kristi will be entering kindergarten next month, other friends and relatives. Refreshments of decorated cupcakes and fruit punch were served and party favors of candy, gum and pencils was given. Approximately 35 children and mothers attending and some who were unable to attend sent gifts.

## Methodist Youth Set Activity Week

The United Methodist Youth Fellowship Week starts Sunday with youth participating in the Sunday morning service and activities will continue through Thursday.

In the fellowship hall at 6:30 p.m. Sunday, Sister Pauline of St. Edwards Hospital will be guest speaker. After the talk the group will go to First Baptist Church for fellowship.

On Monday after the program, the group will go swimming at the city pool and eat after the swim. For Tuesday evening a cookout will be held at the home of Lorrie Logan and speaker will be Rev. Bob Waters.

On Wednesday evening the meal will be served at the church and Supt. Buddy Dulin will be speaker. A skating party will follow the program.

A hayride will follow guest speaker Phil Smith on Thursday.

Activities for the week are for all youth from grades 8-12. Adult counselors will be Mr. and Mrs. Mike Zajicek, Mr. and Mrs. Jesse White and Max Shuemate.

Vacation Church School will be held at First Methodist August 8-12 with Mrs. Pat Camp directing. Classes will be for ages 3-11 and held every morning from 9:30-11:30.

Families who have recently moved to Cameron are invited to attend First Methodist. Church school begins at 9:45 and morning worship at 11.

## OBITUARIES

### Beckhusen

Mrs. G.H. (Ludie) Beckhusen, 84, of Buckholts died Saturday in a Cameron hospital.

Funeral was at 2 p.m. Monday in Hope Lutheran Church in Buckholts, the Rev. Charles Treptow officiating. Burial was in Hope Lutheran Memorial Park.

Surviving are her husband of Buckholts; sons, Wilburn Beckhusen of Buckholts and Garrett H. Beckhusen Jr. of Snook; a sister, Mrs. John Svetlik of Buckholts; 10 grandchildren and three great grandchildren.

Marek-Burns-Laywell Funeral Home of Cameron was in charge of arrangements.

### Manpower Program Ends For Summer

The Central Texas Manpower Consortium, including the county of Milam, has just concluded its 1977 summer program for economically disadvantaged youth.

The summer program had several innovations, including classroom training in pre-vocational skills and field trips, along with work experience.

Eight weeks of classroom training was conducted at the Cameron schools by Marilee Thweatt and Ronnie Thweatt.

### Chemist honored

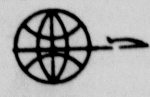

AUSTIN, Texas (Spl.) — A new endowed professorship in The University of Texas Chemistry Department has been established to honor a chemist who long taught there.

Funds exceeding \$100,000 were raised by the Chemistry Department to endow the Norman Hackerman Professorship in Chemistry.

Dr. Hackerman, one of the nation's leading chemists and now president of Rice University, was at UT Austin for 25 years.

# Howard-Zajicek Pledge Vows In Kingsville

Joretta Howard of Kingsville became the bride of Mike Zajicek of Cameron in a double-ring ceremony, Saturday, July 16 at the First United Methodist Church in Kingsville.

The bride is the daughter of Mr. and Mrs. Joe Howard of Kingsville. The bridegroom is the son of Mr. and Mrs. Benjamin Zajicek of Cameron.

The Rev. Leroy Russell performed the double-ring ceremony. The music was furnished by Mrs. Edie Crockett of Kingsville and Mrs. Dennis Messenger, vocalist, of Kingsville.

Given in marriage by her father, the bride wore soufle knit enhanced with renaisance neckline etched in Venice lace medallions, sculptured empire waistline, finger tip sleeves bonded in lace, a line skirt terminating in a chapel length train. The veil was made of illusion, fell from a cap that was trimmed with lace medallions matching that of her gown and fell to just below the waist. She carried a cascade of daisies, yellow roses and baby's breath.

Matron of honor was Mrs.

MRS. MIKE ZAJICEK

David Bernsen of Corpus Christi. She wore a full length lime green dress made of imported crepe. Bridesmaids were Miss Dena Morrison of Kingsville, Miss Jan Beyer of Victoria and Mrs. Ronnie Pope of Houston. They wore full length lime green dresses made of imported crepe. The matron of honor and bridesmaids carried a nosegay of fresh daisies and baby's breath and wore a silk daisy in their hair.

Best man was James Mueck of Austin. Groomsmen were Robert Brashear of Austin, Dale Schigut of Cameron, and Mark Dodson of Houston.

Laura Hollas of Cameron and Amy Bassett of Grape-land, cousin of the bride, were flower girls. Candle lighters were Lee and Lyn McDonald of San Antonio.

Ushers were David Bernsen, cousin of the bride of Corpus Christi and Joe Lee Humplik, uncle of groom of Cameron.

The reception was held at Henrietta Memorial Center. A rehearsal dinner given by Mr. and Mrs. Ben Zajicek, was held at the Holiday Inn in Kingsville on Friday July 15.

The bride's table laid in delicate embroidered scalloped organza table cloth with a full gathered skirt that fell to the floor. The centerpiece was a silver candleabra entwined with English ivy and daisies. The wedding cake was a four tier confection enhanced with a garland of fresh flowers in shades of apricot, peach and yellow.

Registering guest was Miss Kathy Kiel of Alexandra, Louisiana. There were 24 houseparty members.

The bride graduated from H.M. King High School and attended Texas A&I where she was a member of Chi Omega Sorority. The groom graduated from Yoe High and the University of Texas at Austin.

After a wedding trip to Acapulco, Mexico the couple will live in Cameron.

# Happening about town

## YOU'RE INVITED....

You are invited to call in your personal mention items to The Herald for either issue. Just dial 697-6671 for publication of your news.

## PERSONAL MENTION

Mr. and Mrs. James A. Brock and children, Becky and Bobby, have just returned from a ten-day business and vacation trip to Taos, New Mexico and Big-Horn, Wyoming, where they were guests of Herb Doenz on the D Bar D Ranch in the Big Horn Mountains.

Doris Mendosa of Buckholts visited Monday with her former teacher, Mrs. Ruth Behrens, who had hip replacement surgery in Scott and White hospital. Cards may be mailed to 2514 Baxter Drive, Austin 78745.

## Termites Treated To Hayride, Weiny Roast

The Crows Termites girls softball team were treated to a hayride to Hawks lake where they had a weenie roast. Members and coaches were: Ruby Swanzy, Betty Lindeman, Tracy Gurlie, Lori Thompson, Vicki Vaculin, Martha Lindeman, Pricillas Taylor, Margaret Rubac, Rebecca Woytek, Pam Denson, Mary and Gary Gregson, Trey Seisec, Joyce Vaculin, Bertie Shumate, and Susan Thompson.

GOLDEN WEDDING - Mr. and Mrs. Stephen F. Polzer of Salem Community will celebrate their Golden Weddin Anniversary August 7, 1977 Sunday. Mrs. Polzer is the former Magdalena Moraw. Friends and relatives are invited to a mass of thanksgiving at St. Monica's Church at 2:00 p.m. after the mass, a reception will be held from 3:00 p.m. to 4:30 p.m. at the K.C. Hall in Cameron. Hosts for reception will be five children, Lawrence, Benard, Wilford, Eugene, Stephen and wives, and nineteen grandchildren.

## Church Rites Unite Ben Arnold Couple

Diane Daskocil of Ben Arnold became the bride of Dennis Pelzel of Ben Arnold Saturday, July 23 at the United Church of Christ in Ben Arnold.

Rev. C.E. Wierth performed the marriage. The music was furnished by Mrs. Max Schuetz of Burlington.

The bride is the daughter of Donnie Daskocil of Ben Arnold and Leonard Daskocil of Cameron.

The bride wore a rose jersey, A-line street length dress. She carried a bouquet of roses with baby's breath.

Matron of honor was Karen Self, sister of the groom, of Austin. She wore a white sun dress and carried a bouquet of roses with baby's breath.

Best man was Steven Self, brother-in-law of the groom, of Austin.

A reception was held in the home of the bride's grandparents, Mr. and Mrs. Herbert Engbrock, of Burlington.

The bride and groom are graduates from Yoe High School.

The couple will make their home in Ben Arnold.

## Riders Hold Reunion

The Rider family reunion was held at the Lloyd Rider home in Cameron last Sunday.

Children attending from out of town included Mr. and Mrs. Mike Spiller of Killeen, Mr. and Mrs. Aubrey Rider of Collingsville, Mr. and Mrs. Larry Webb and daughter of Sherman, and Robert Rider and son of Flint, Mich. Five other children were at home.

## Traveler's Tips

### PACKING IT IN

It's a lot easier to get the most out of your vacation if you're able to get the most into your bags. These hints should help you get your suitcase to suit your clothes.

First layer. This consists of odd-shaped articles placed on the bottom. This includes your shoes, cosmetic bag, and other heavy items. Leave an empty space in the middle for things you don't use regularly, such as a special pocketbook or blouse.

Second layer. Make a shelf of dresses and suits, and always cover as much area as you can, with as few folds as possible. To pack a dress, leave the belt fastened loosely; fasten most buttons. Pick up the dress by the shoulders, draw it across the length of the suitcase. Fold the dress back across itself with the sleeves turned underneath. Let the fabric fall into natural folds.

Third layer. This is for things you'll need to get at easily, like pajamas, robe, a cardigan, perhaps a folding umbrella.

So if you're thinking about a trip that takes you to many places with many nightly stops, such as the special historic, Bicentennial Tours offered by Trailways, you'll want to pack a suitcase that can be stored on a bus baggage rack for added convenience.

### FREE SHOW

Art lovers—and bargain hunters—can enjoy a free outdoor art show practically at their doorstep every Sunday, weather permitting, when they stay at the Holiday Inn hotel in Baywater Road, London, England.

## Births

### Grimes

To Mr. and Mrs. Robert D. Grimes a girl, Joanne Victoria, 8 lbs. 6 oz. born July 29th. Grandparents are Mr. and Mrs. Earl Baltz of Waxachie, Texas and Mrs. Billy F. Grimes of Cameron.

### Conley

To Mr. and Mrs. Robert Conley of Cameron, a girl, Amy Elizabeth, 7 lbs., 10 oz. born at 2:20 p.m. July 22 at St. Edwards Hospital. She was welcomed by a sister, Angie. Grandparents are Mr. and Mrs. Johnnie Good of Cameron.

To commemorate his 700th parachute jump, British Army Sergeant Hector Macmillan made a leap in full Scottish national dress, including kilts, while playing "The Road To The Isles" on his bagpipes!

### Guillote

To Mr. and Mrs. Charles Guillote, a boy, Waymon Joseph, 6 pounds 15 oz., born July 28 in a Burbank, Calif. hospital. Grandparents are Mrs. Waymon Tanksley of Burbank and Mr. and Mrs. Leroy Guillote of Tracy.

### Chandler

John Paul Chandler proudly announces the birth of his 7 lb. 9 oz. sister, Amanda Ruth, born at 4:15 a.m. July 30th at St. Edward Hospital. The proud parents are Paul and Carolyn Chandler. Grandparents are Mrs. Vonnie Chandler and Mr. and Mrs. John H. Mitchell of Cameron. Great-grandparents are Mrs. Mary Reynolds, Mrs. F.H. Mitchell, and Mr. and Mrs. S.H. Posival.

## Rutherford Nabs Victory In American 200

Johnny Rutherford, the most successful driver ever seen at Texas World Speedway, battled to the end with Gordon Johncock Sunday to win the American Parts 200 auto race.

Rutherford who has finished no lower than fourth in any race he has entered at TWS, took the lead in the 33rd lap of the 100 lap race, holding off threats by Gordon Johncock and Pancho Carter to race his way to victory lane.

Johnny Parsons Jr. was fourth, Tom Sneva a respectable fifth, James McElreath sixth, Rick Mears seventh, Larry Dickson eighth, Bobby Olivero ninth, and Tom Big-

elow closed out the top ten racers of the 22 car field.

The days only mishap occurred in the 38th lap as Rutherford's McLaren-Cosworth hit Dick Simons Vollstedt-Offy in the pit area. The collision forced Simon to leave the race. Rutherford's car was unharmed as the Fort Worth native went on to win the race and move into second place in the United States Auto Club standings. Tom Sneva leads the points

standings with 3221, while Rutherford holds 2200 and Gordon Johncock is third in the standings with 2070.

Rutherford praised his pit crew stating that "everything was good, the car ran like a clock all day." "I thought I was in second and Gordon (Johncock) was first and was ready to go after him, but my pit crew informed that I was leading and told me to cool it."

As for the collision with Simon, Rutherford said "I didn't see him, I don't know if I pulled out to far or if he cut in front of me. I certainly didn't mean to hit him."

Danny Ongais, who won the pole position in Saturdays qualifying took an early lead, and battled Al Unser, Rutherford, Johncock and Carter, until the 35th lap when Unser collided with the wall in the third turn, spilling all his fuel and forcing the racers into a ten lap caution.

After the caution Ongais had clutch problems in his Parnelli-VPI and eventually left the race.

That left the race open to Rutherford, Johncock and Carter, and by the 60th lap Carter had fallen more than a lap behind.

Johncock and Rutherford had the track to themselves at that point. Johncock took the green after a four lap caution on the 54th lap, but Rutherford simply out did his opponent on the next lap, to take the lead. Johncock regained the lead on the 59th lap, Rutherford battling back to the number one spot in the 61st lap, and from there it was clear sailing for Lone-Star J.R. as both men took critical pit stops in the last ten laps, Rutherford picking up two seconds as Johncock's pit stop was ten seconds and Rutherford had left the pits in 8.

Four time Indy winner A.J. Foyt started the race in the fifth position, leaving the race in the 11th lap with suspension and air foil problems.

Rutherford's average speed on the two mile, high banked oval was 164.19 miles per hour.

LONE STAR J.R. Johnny Rutherford is all smiles after winning the American Parts 200 Sunday at Texas World Speedway. Rutherford's average speed for the 200 mile event was 164.19 miles per hour. Photo by Mike Peck.

## Hunting And Fishing Licenses Net 11 Million In Revenues

Texans and visitors to the state bought a total of some 2.7 million hunting and fishing licenses last year.

The sales accounted for more than \$11 million in revenue to the Texas Parks and Wildlife Department for fish, wildlife and law enforcement programs.

A total of 1,564,405 fishing licenses was sold, plus another 1,126,509 hunting licenses.

Texas trails a number of states in sales of both hunting and fishing licenses, according to recently

released figures from the U.S. Fish and Wildlife department.

California far and away led the nation with 5.8 million fishing licenses sold. Texas ranked third behind Michigan.

Texas placed fourth in the sale of resident and nonresident hunting licenses, behind Pennsylvania, New York and Michigan.

Through June of 1977 state fiscal year (September 1976 - August 1977), license sales officials at the Parks and Wildlife Department report 1,052,999 hunting licenses of various kinds sold, including 428,779 resident combination hunting and fishing licenses.

ses.

Another 871,667 sportfishing licenses have been sold for the same period.

Sales of the Combination Resident Hunting and Fishing license are down by some 12,000 from the same period last year, nearly \$100,000 less income to the P&WD. Nearly 17,000 fewer fishing licenses have been sold this year compared to last, which represents a decline of some \$67,000.

## Baseball Roundup

The Temple Tigers defeated the Cameron Reds 9-6 Sunday. The Reds will travel to Holland to meet the Salado Pirates there Sunday.

The Franklin Parrots defeated the Cards 8-6 there Sunday. The Cards will take Los Tigres of Rosebud here Sunday at Colonial Field starting at 2 p.m.

Today there are said to be between three and four million vegetarians in the United States.

JOHNNY RUTHERFORD #2 battles Danny Ongais #25 through the front straightaway of TWS. Ongais was the pole setter for the event but

was forced to leave the race with clutch problems. Rutherford went on to win the event. Photo by Mike Peck.

## GREAT MOMENTS IN SPORTS IN A NUTSHELL

A great moment in sports occurred in 1964 when Sixten Jernberg of Sweden set an olympic record by winning his fourth cross-country skiing gold medal.

A great moment in sports occurred on April 8, 1974 when Henry (Hank) Aaron broke Babe Ruth's 714 lifetime home run record. Young batters today can enjoy snack bars such as Butterfinger® and Baby Ruth® for some of the energy they need to play ball.

# Insurance Center Offers Property Inventory Tips

The best way to determine whether you need a household inventory is to take a little test.

Close your eyes.

Now try to describe accurately everything in your home.

Give the model numbers, year of purchase, approximate cost, replacement value, serial numbers.

Hard to do, isn't it? Don't feel bad; very few people can. But in the event of a major loss such as a fire or hurricane that destroys much of your property, the Texas Insurance Information Center (TIIC) of the Insurance Information Institute says you may be asked to do just that.

If you have done much of the work in advance by taking inventory of personal property, and periodically updated the information, the job will be much easier

when it comes time to settle an insurance claim and to make proper income tax deductions. Instead of guessing -- and maybe missing an important item or valuing something too low -- you are sure of your record of loss is accurate.

Although no insurance company would deny a claim just because the inventory record is inadequate, the company may require proof of ownership and cost before paying for a loss, the TIIC says. An inventory list would eliminate many questions as to value or ownership.

## AVOID DISAPPOINTMENT

Additionally, an inventory record may serve as a clue to inadequacies in coverage. Some items--such as money, furs, jewelry, watches, securities, negot-

table instruments and the like -- are limited in coverage for certain losses.

If you have many valuable items in these categories, you might want to check with your agent or company representative for additional coverage. The important thing is avoid disappointment by having as much--or as little--insurance as you want or need.

Unusual items (antiques, fine art, coin or stamp collections) on which it may be difficult to place a value should receive careful attention. A special policy amendment and additional premium, generally relatively modest, will protect such items.

The initial inventory will be the most time consuming,

since you will have so many things to list. On the list, note the model, make, date of purchase, cost, whether new or used when purchased, serial number and any special feature that might affect the value of the item.

It is probably easier to make the inventory one room at a time and then have someone double-check to make sure nothing was left out. Don't overlook the garage, attic, closets and contents of drawers.

## KEEP IN SAFE PLACE

For major purchases, try to locate a receipt that would help prove your claim. Over the years as you obtain new valuables, keep receipts and attach the original or a copy to your inventory. About once a year, take out the inventory record and add any new purchases. An inaccurate or out-of-date inventory will be less valuable.

Keep your inventory in a safe place (like a safety deposit box). If it is kept at home, it should be in a location which is dry, fire-proof, and secure. You might even want to give your insurance agent and/or someone else a copy in case the original is lost or destroyed.

## MR. BUSINESSMAN:

**IF THERE REALLY IS NO NEED FOR CONTINUOUS ADVERTISING**

### MINISTERS

SHOULD PREACH ONLY ONE SERMON OR SO PER YEAR. PEOPLE ARE AGAINST SIN ANYWAY SO WHY RAP ABOUT IT.

### TRAFFIC LIGHTS

SHOULD BE TURNED OFF AT DANGEROUS INTERSECTIONS TO SAVE ELECTRICITY. EVERYBODY SHOULD KNOW IT'S A DANGEROUS SPOT AND THAT OUGHT TO BE SUFFICIENT.

### HIGHWAY POLICE

SHOULD STOP DRIVING UP AND DOWN THE HIGHWAYS. NO NEED TO CAUTION DRIVERS BY PATROLLING HIGHWAYS. DRIVERS KNOW THE LAW AND ALWAYS OBEY IT.

### TEACHERS

SHOULD NOT REVIEW LESSONS. TELL CHILDREN JUST ONCE AND THEY WILL NEVER FORGET.

### BUT

IF YOU ARE ONE OF THE FOOLISH KIND-LIKE THE NOTRE DAME CATHEDRAL THAT HAS STOOD FOR SIX CENTURIES BUT CONTINUES TO RING THE BELL EVERY DAY TO LET PEOPLE KNOW IT IS STILL THERE - AND BELIEVE IN CONTINUOUS PROFITABLE ADVERTISING, THEN YOUR ADVERTISING BELONGS IN ---

## NEWS Of Medicine

### SCANNING YOUR HEART

**HELPING HUMAN HEALTH** - Many formerly impossible studies, particularly of the heart, can now be made because of a new instrument.

This year more than one million Americans will suffer a heart attack, reports the American Heart Association, including many in the prime years of life.

Fortunately, because of recent advances, a large and increasing number of patients now survive a first and even a second heart attack--and a majority of these patients return to productive lives.

One significant advance in diagnosing possible heart trouble is a computerized, scanning gamma camera. Detailed clinical information which before could be obtained only with considerable patient time, trauma and expense may now be derived routinely, painlessly and at far less cost--on an

out-patient basis. Called the Baird-Atomic System Seventy-Seven, the camera can perform many studies, particularly of the heart, which were formerly impossible. It was developed by scientists at Baird-Atomic, a high-technology company that has made a major contribution in the field of medicine as well as other areas for more than 40 years.

The new camera has become an indispensable diagnostic tool in clinics throughout the world and has also become a means of encouraging cardiac care on a preventive medicine basis, in which an annual checkup of the heart will soon become as routine as a chest X-ray every year.

## Camp Real Estate

A 5 room older frame home on 1/2 acre lot, good sandy garden spot, several trees. Close to school and paved street.

2 nice 3 bedroom homes on 90' x 210' lots. Gardens spots and fruit trees. Large combination garage and shop buildings. Both have 2 baths and refrigerated window air units. Both homes face two gravel streets.

Large 7 room older frame home and outbuildings on 1/2 acre 1 mile west of Cameron city limits. Rural water, butane gas and electricity. Lots of large shade trees. Yours for \$10,000.

19 acres sandyland, large oak trees and coastal bermuda grass. Partially fenced with steel post and new wire. Approximately 600' from hardtop F.M. road. Located at Sharp, 14 miles South of Cameron.

3 building lots on N. Crockett, approx. 3/4 acre each, all utilities. Some trees.

24 acres unimproved wooded sandyland. Fenced three sides. 6 miles east of Cameron. Electricity available. Private road.

Interested in a farm or ranch? We have good blackland farms in the Burlington and Ben Arnold area ranging in size from 120 acres to 516 acres. These farms due good cotton and grain producers. We list a good 318 acre sandyland stock farm 8 miles east of Cameron, good house and good fences, barns and corrals. Farm to market road. 654 acre stock farm 2 miles south of Rogers. Approximately 250 acres in coastal and love grass and haygrazer grasses. 2 bedroom home, 4 stock water tanks and water wells, rural water. Good barns. Priced right with owner financing. Farm to market road on two sides.

127 acres -- 60% open, 40% wooded. 3 stock water tanks, community waterline. Located on F.M. 1328 between Davilla and Buckholts.

Call us if you are considering selling. We have buyers for 2 and 3 bedrooms homes in Cameron, Buckholts and Rogers. Also need building lots in good locations.

## 4-H CLUB NEWS

By Joseph D. Janak, Jr.

District recordbook judging was held in Brenham at Blinn College, July 21. CEA Bill McCutchen, John Snell, Vivian Pittman and ACEA Joe Janak helped judge along with 4-H leaders Mrs. Bobby Scroggins and Mrs. Johnny Ray Marak.

Nineteen recordbooks from Milam County went to the District judging with seven in the senior division and 12 in the junior division.

Blue, red, and white ribbons were given to the top three books in the senior division, with blue ribbon winners going to state. In the junior division, blue, red or white ribbons were given to every book. Everything was judged except the district dress revue which will be judged July 26.

In the senior division those who received a second place ribbon were Peter Riola, Barbara Winkler, Christopher Riola and Wynona Scroggins. Seniors that didn't place in the top three were

Raye Nell Obermiller, Kathryn Keyser and Lori Tomascik.

In the junior division those that received a 1st place ribbon were Rosemary Riola, Lisa Rubac, Johnny Ray Marak, and Rhonda Scroggins.

Those that won second and got a red ribbon were Janet Hall, Deborah Glaser, Darrell Glaser and Charles Ehler. Dominic Riola received a white ribbon.

District dress revue was held at Town Hall in Hancock Center in Austin, July 26. Vanessa Marak, Margie Frenzel and Jocelyn Glaser's recordbooks were presented to be judged.

Vanessa received a red ribbon in the senior division; Margie received a red ribbon in the junior division and Jocelyn received a blue ribbon in the sub-junior division.

Congratulations to all 4-H'ers who put recordbooks together and especially to those who went to district.

## Sharp-Tracy-Friendship

**Mrs. Leroy Guillote**  
Church services will be held Sunday, beginning at eleven in the Sharp Presbyterian Church with Rev. Lambert officiating.

Agnes Rinn spent her vacation in Houston visiting with her sister, Mallita Galler and in Spring with Mr. and Mrs. Charles Galler and son.

Mr. and Mrs. Tommy Romaine of Houston spent the weekend with Elmer Rinn, Norma Rinn and Annie Hodge. They all attended the wedding of Scott Mitchan in Cameron Saturday.

Tim Hanke was in Dallas all week attending a school workshop. Mrs. Jan Hanke drove to Dallas and they went

to the funeral of Jan's aunt Saturday.

Mrs. Nita Ruth Davis and children Keith and Kathleen of Lubbock spent the week with her mother, Mrs. Ruth Caffey. Her brothers, Clement Caffey of Bossier City, La. and Clyde Caffey of Pasadena came in Friday. Sunday, Mr. and Mrs. Fred Green of Belton and their son, Brady of San Marcos and Mr. and Mrs. Wayne Caffey and children joined the family Sunday and celebrated Mrs. Ruth Caffey's birthday.

Clement was accompanied home to Louisiana by Billy Wayne Caffey who will spend two weeks with them.

The Sharp School reunion

was held Saturday night in the home Demonstration Club House in Rockdale. Mrs. Wavy Charles and Mrs. Mable Charles helped serve the dinner.

The class that graduated 17 years ago had the most members present. They were Clyde Caffey, Donald Janke, Linda Coffman, Sheryl Roesler Williams, Troy and Betty Carolyn Brockenbush Lock and James Guillote.

James and Sheila Guillote of Trenton, New Jersey spent five days with his folks, Mr. and Mrs. Leroy Guillote.

The water lines are being laid in the Tracy-Duncan area.

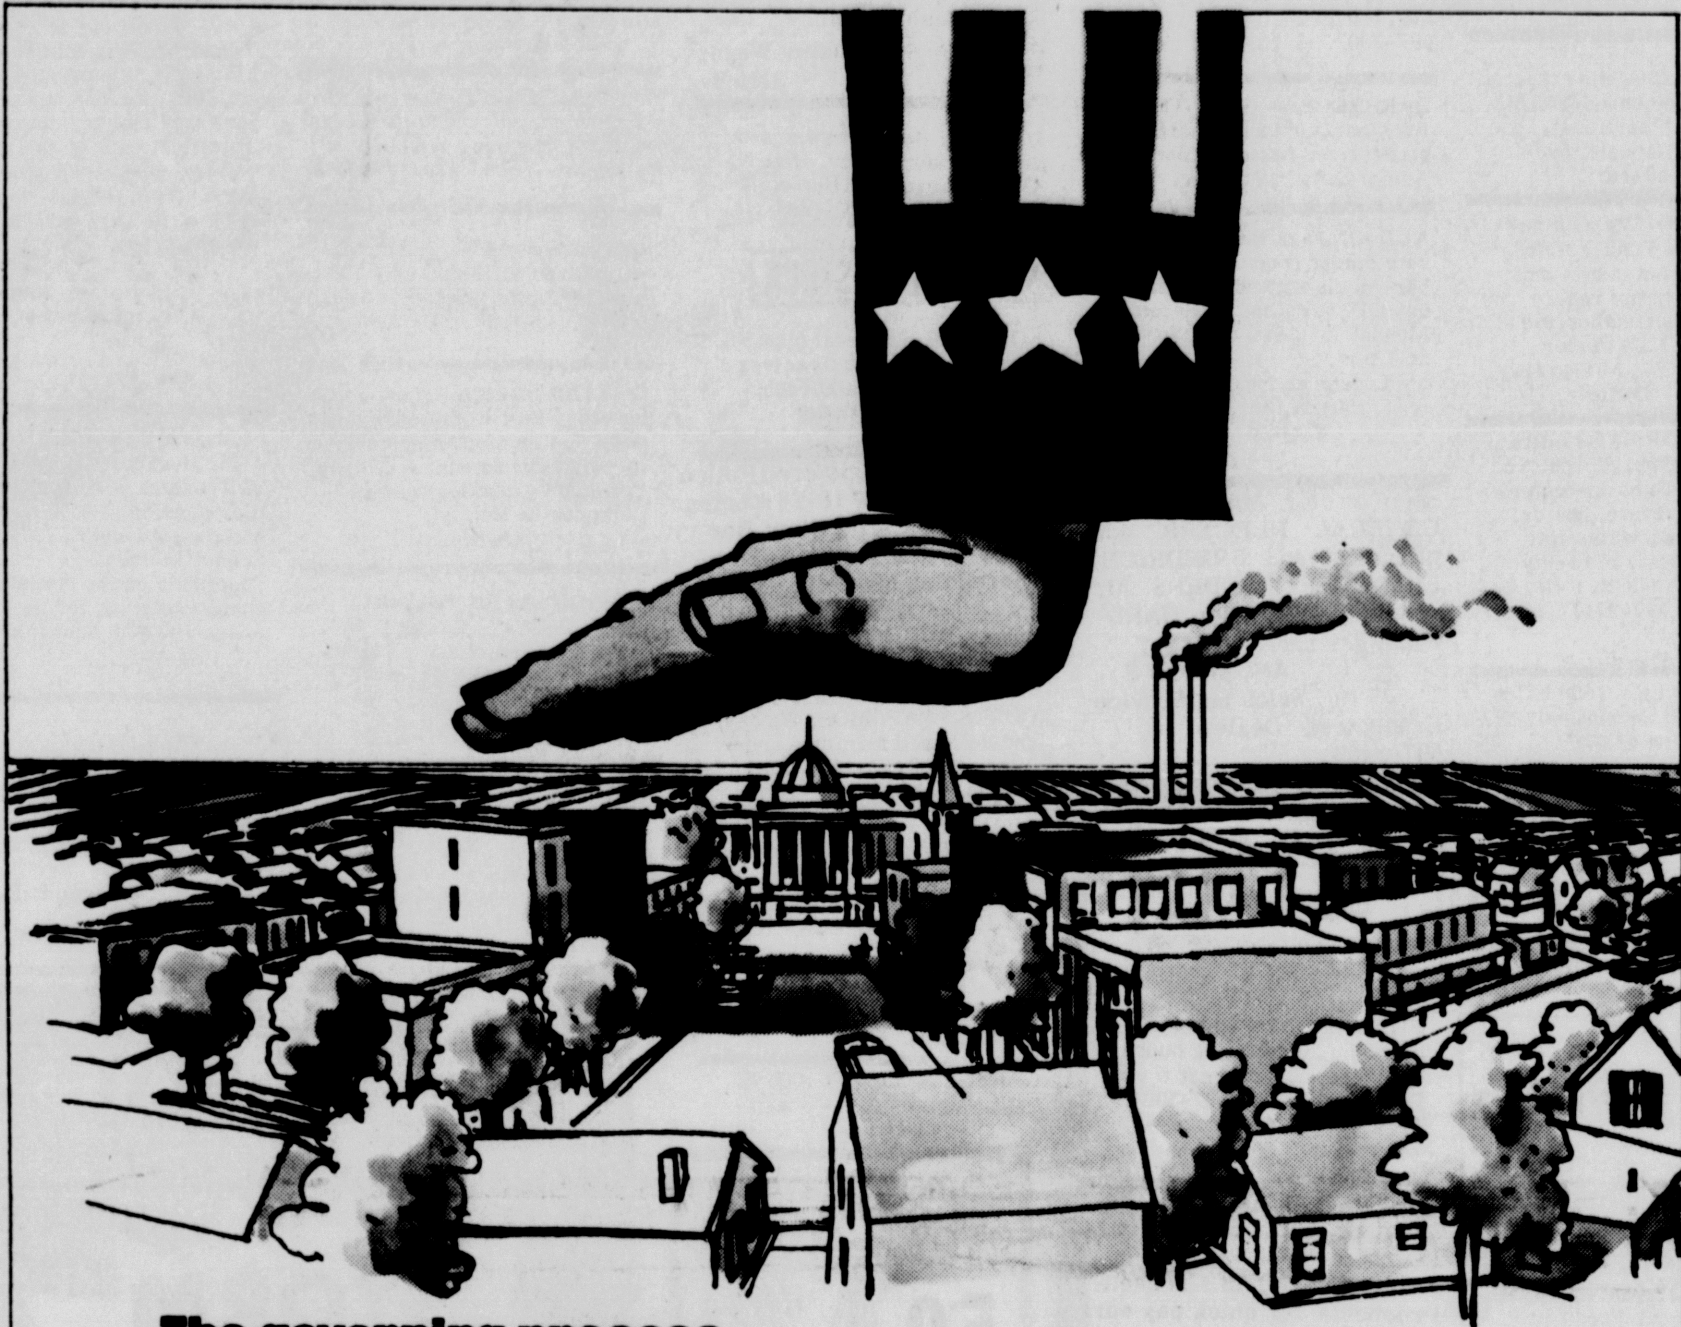

Carolyn Stevens accompanied the young folks church group for a days fun at Six Flags.

## Servicemen

DAVID HARRISON

Airman David R. Harrison, son of Mrs. Sarah F. Coleman of Rockdale, has been assigned to Sheppard AFB, Tex., after completing Air Force basic training.

**The governing process.**

# Have we got our ups and downs mixed up?

It has been stated that the least amount of government is the best amount of government.

That's because in our system of representative government the most effective, most economical way to resolve issues is at the lowest possible community level.

It's only when issues become too broad, too complex, and reach beyond the community they should move up to the next highest level. From city to county to state to Federal.

What happens too often, however, is that ways to resolve community issues move down. From Federal to state to county to city. And many times they don't fit too well.

Why is the process sometimes reversed?

Perhaps "big" government is habit forming and it's easier (at least temporarily) to let someone else solve our problems.

Perhaps we are sometimes indifferent to inequities within our community.

Perhaps life has been too good to us and the challenge of getting involved in local community government is just too big a sacrifice.

Perhaps we don't tell our legislators often enough how we want them to represent us.

Whatever the reason, we're concerned about the fact that increasingly government is moving from the top down. And we feel that's the wrong way to go.

If you agree with us, consider what you might do to help keep more of the governing process right here in our own communities. Because in the American political system that's where it first belongs.

Tomorrow's design innovations today

Crank out an old time treat...  
 Whether you use an old fashion crank home freezer or the newer electric ones, homemade ice cream is an every summer favorite.  
 The basic vanilla ice cream recipe can be a cooked custard type or an uncooked one. Be sure to use fresh, clean, uncracked eggs and the freshest milk or cream you can get. Most recipes may taste over sweet before freezing.  
 Homemade ice cream is best made ahead of time and allowed to cure, that is, remove the dasher and repack in ice and salt. Properly repacked and covered it will stay firm 4-6 hours.  
 Here's one easy basic vanilla recipe, for

more, write for "Scoop, Ice Cream is Back"...

**New/Old Fashioned Vanilla Ice Cream**  
 6 eggs (clean, uncracked) 1/4 c. instant non-dairy creamer  
 2 c. sugar 2 tsp. vanilla extract 1 1/2 c. half & half or milk  
 1/4 tsp. salt  
 Beat eggs until light and fluffy. Add sugar, salt and non-dairy creamer. Continue beating until thick and creamy. Add vanilla. Pour into freezer can. Add dasher and finish filling with cream or milk. Freeze according to your freezer directions. Makes one gallon.
